Cumulative Index

NEED to find something published during 1983 in TEXTILE CHEMIST AND COLORIST? This index can help you find it quickly either by author or by subject matter.

For example, if you know that the article you are looking for was written by BURAS, a check of the Index of Authors shows that EDMUND M. BURAS JR. is the author of title 3. The Index of Titles, in turn, identifies title 3 as "Generation of Lint from Fabrics," and shows that it was published 1-17/1 (1 = the January issue; 17 = the page number in the January issue; and the 1 following the virgule (/) = the continuous pagination for calendar 1983.

If you don't know who wrote the article, you can locate it by using the Key Term Index. You know, for example, that the article is about lint. Finding that term in the Key Term Index will give you the title numbers of all articles published thus far this year pertaining to lint. Each article is keyed with several terms to permit you to crosscheck broader terms with others more specific, thereby reducing the search even further.

Copies of individual articles (whether in the form of reprints, tearsheets or photocopies) are available at $3 each (prepaid U.S. funds net; surface mail) from TEXTILE CHEMIST AND COLORIST, Box 12215, Research Triangle Park, N.C. 27709.

The magazine also is available on microfilm from University Microfilms, Ann Arbor, Mich. 48106. In addition, the magazine is abstracted by CHEMICAL ABSTRACTS, ENGINEERING INDEX, TEXTILE TECHNOLOGY DIGEST, TITUS (Institut Textile de France) and WORLD TEXTILE ABSTRACTS.

Index of Titles

The numbers to the right of each entry provide the issue and page number for that article. Title 3, for example, was published 1-17/1 (1 = the January issue; 17 = the page number in the January issue; and the 1 following the virgule (/) = the continuous pagination for calendar year 1983.

(1) National Officers Elected for 1983 1-4
(2) AATCC Research Committee Activity. Reports of meetings of some 45 test method and technology committees November 2-4, 1982 1-14
(3) Generation of Lint from Fabrics. By Edmund M. Buras Jr. and Richard H. Harris Jr., Gillette Research Institute 1-17/1
(4) A Method for Measuring the Foam Propensity of Disperse Dyes. By AATCC's Piedmont Section, 1982 Intersectional Technical Paper Competition 1-21/4
(5) Microwave Dyeing of Polyesters with Disperse Dyes. By Jaw-Hua Chiao-Cheng and Barbara M. Reagan, Kansas State University, 1982 Student Paper Competition 1-29/12
(6) A Review of New Products for the Dyehouse and the Lab. A review of selected new products published in Textile Chemist and Colorist during calendar 1982 1-37
(7) *Letters*: Study Underway on Yellow Spots from Benzoyl Peroxide. By Walt Libscomb, Chairman, Benzoyl Peroxide Subcommittee, AATCC Committee RA57, Floor Covering Test Methods 2-9
(8) *Book Review*: Textiles in Perspective. By Betty Smith and Ira Block, University of Maryland. Reviewer: Robert S. Merkel, Florida International University 2-10
(9) AATCC Council Highlights 2-11
(10) Textile Industry Sales Dropped Nearly 15% in 1982 But Brighter Prospects Are Seen for the Year Ahead 2-13
(11) Problems and Pitfalls in Forecasting U.S. Dye Consumption. By Rolf G. Kuehni, Mobay Chemical Corp. 2-15/20
(12) Changes and More Changes. By G. Robert Turner, Consulting Editor 2-19/24
(13) Radio Frequency and Microwave Drying Hold Promise for Textile Applications. By Gary N. Mock, North Carolina State University, and Dean Myers, Gaston County Sales and Service Corp. 2-21/25
(14) Textile Technology; A Management Oriented Approach. By L. A. Hudson Jr., Dan River Inc. 2-24/28
(15) Extending the Lower Limit of Wet Pickup in Foam Finishing of Cotton Fabric. By R. L. Brown and G. M. Bryant, Union Carbide Corp.; R. E. Young, Cotton Incorporated; and C. P. Smith, Gaston County Dyeing Machine Co. 2-27/30
(16) Effects of Solubility Parameters on Disperse Dyeing of Polyester. By Arthur Urbanik, Dan River Inc. 3-13/36
(17) DETO/USOC: Dye Producers Band Together Worldwide to Monitor Their Environmental Fate. By Eric A. Clarke, Dyes Environmental and Toxicology Organization, the U.S. Operating Committee of the Ecological and Toxicological Association of the Dyestuffs Manufacturing Industry 3-23/42
(18) Don't Discourage the Employee Who Thinks and Acts Like An Entrepreneur: He Could Be A Big Asset. By Irving Kaplow, Reeves Brothers Inc. 3-27/45
(19) Removal of Pesticide Residues from Fabrics by Laundering. By Elizabeth Easter, University of Tennessee, 1982 Student Paper Competition 3-29/47
(20) 1983 Roster of AATCC Section Officers 3-34
(21) *Book Review:* Color Science, Concepts and Methods, Quantitative Data and Formulae. By G. Wyszecki and W. S. Stiles. Reviewer: Rolf G. Kuehni, Mobay Chemical Corp 4-9
(22) Why Do White Fabrics and Garments Turn Yellow During Storage in Polyethylene Bags and Wrappings? By Kenneth C. Smeltz, The Du Pont Co. 4-17/52
(23) Biodegradation of Nonionic Surfactants: Alcohol Ethoxylates vs. Nonylphenol Ethoxylates. By L. Kravetz, Shell Development Co. 4-23/57
(24) The Effect of Disinfectant Concentrations of Chlorine Bleach on Chlorine Sensitive Fabrics. By Judy Gamper and Charles L. Riggs, Texas Woman's University 4-29/63
(25) Caustic Reduction of Polyester Fabrics. By Kenneth D. Houser, The Du Pont Co. 4-37/70
(26) *Short Communication:* Some Reflections on a

LEATEX CHEMICALS PERFORM LIKE MAGIC

But the reasons why our textile chemical specialties perform so well are anything but illusory. Our R & D laboratory works full time at maintaining and improving our almost 60 year reputation for quality and reliability. In fact, most of our many standard products began life as solutions to customers' problems.

Look to Leatex for extensive lines of: • Wetting Agents • Scouring Agents • Finishing Agents • Dyeing Agents • Auxiliary Agents

You'll be amazed at the range of proven performance products from Leatex. But if you need one that doesn't exist yet, our R & D "magicians" will produce it for you.

Give Leatex a call and see how quickly an expert field specialist will materialize at your office or plant to help you.

Proposed Test Relating to Ignition Hazard in Upholstered Furniture. By Giuliana C. Tesoro, Polytechnic Institute of New York 4-40/73

(27) Literature Review: Foam Wet Processing in the Textile Industry. By T. F. Cooke, Textile Research Institute 5-13/74

(28) AATCC Council Highlights. The 299th meeting of the AATCC Council was held February 17, 1983, at the Sheraton Center in Charlotte, N. C. 5-25

(29) AATCC Research Committee Activity. Reports of some 50 test method and technology committee meetings held February 15-17, 1983, at the Sheraton Center in Charlotte, N. C. 5-26

(30) The Search for the Ideal Shade Passing Formula. By Keith McLaren, Instrumental Colour Systems Ltd. 5-29/86

(31) Effects of Solvent Treatment on Dyeing of Polyester Fibers. By Robert J. Papuga, Charles D. Livengood and Gary N. Mock, School of Textiles, North Carolina State University, 1983 Student Paper Competition 5-34/91

(32) *Letters:* Seeking Books on Block Printing, Block Making. By Joyce Storey, Philadelphia College of Textiles and Science 6-9

(33) Indigo Denims: The Practical Side. By James E. Greer and G. Robert Turner 6-11/101

(34) Indigo Dyeing: An Ancient Art. By Claude S. Hughey, BASF Wyandotte Corp. 6-13/103

(35) The Fading of Xenon Reference Fabric: The Weather-Ometer vs. the QUV Tester. By H. H. Epps and T. A. Perenich, University of Georgia . 6-21/109

(36) Sandoz Carpet Seminar Offers New Insight Into Coloration Styling. By G. Robert Turner, Consulting Editor 6-26/114

(37) Assuring Sensitivity and Precision in the Sealed Jar Test for Formaldehyde Release. By B. A. Kottes Andrews and Robert M. Reinhardt, Southern Regional Research Center, U.S. Department of Agriculture 6-27/115

(38) Today's Dyeing Equipment. By G. Robert Turner, Consulting Editor 6-33/121

(39) Technical Program Announced for AATCC Conference at New Orleans 6-34/122

(40) *Book Review:* Weaving: Conversion of Yarn to Fabric. By P. R. Lord and M. H. Mohamed. Reviewer: J. W. Weaver, University of Maryland 8-10

(41) Atomization System for Low Wet Pickup Finishing. By Esmond J. Keating, Allan H. Lambert and Gerald B. Verburg, Southern Regional Research Center, U.S. Department of Agriculture ... 8-14/124

(42) Assessing the Machnozzle as a Predrying Device. By W. W. Carr, W. D. Holcombe, K. E. Pearson, S. D. Robertson and W. C. Carter, Georgia Institute of Technology 8-21/129

(43) New Challenges in Dyeing. By G. Robert Turner, Consulting Editor 8-27/135

(44) New Orleans: A Mardi Gras of Textiles (AATCC Conference & Exhibition) 8-31

(45) AATCC Council Highlights. The 300th meeting of the AATCC Council was held May 12, 1983, at the AATCC Technical Center in Research Triangle Park, N. C. 8-40

(46) AATCC Research Committee Activity. Reports of test method and technology committee meetings held May 10-12, 1983, at the AATCC Technical Center in Research Triangle Park, N.C. 8-42

(47) The Carpet That Wouldn't Stay Clean. By W. T. Holfeld, The Du Pont Co. 8-49

(48) New Orleans: A Mardi Gras of Textiles. A preview of AATCC's 1983 Conference & Exhibition .. 9-17/138

(49) Theodore F. Cooke to Receive Olney Medal ... 9-23/144

(50) Vernon C. Smith to Receive Chapin Award 9-25/146

(51) Valentin Appenzeller, Inventor of the Swimming Roll Padder, to Receive the Millson Award 9-27/148

(52) The Good Old Days Before the Swimming Roll. By G. Robert Turner, Consulting Editor 9-49/170

(53) Drying Machines for Today and Tomorrow. By Alan Goldberg, Krantz America Inc. ... 9-53/172

(54) Rapid Dyeing Systems for Polyester. By G. Robert Turner, Consulting Editor 9-61/180

(55) Reactant Fixable Dyes: A New Way to Produce High Wetfastness Properties on Cellulosic Fibers. by T. Robinson and W. B. Egger, Sandoz Ltd. 10-13/189

(56) Ionic Crosslinking of Acrylic Sizes. By Gary A. Ungefug and Stephen B. Sello, J. P. Stevens & Co. 10-18/193

(57) Dyeability-Structure Relationships in High Speed Spun Yarns. By. R.A.F. Moore and H. D. Weigmann, Textile Research Institute 10-23/197

(58) The Effect of Dye Interactions on Color. By Howard L. Needles, Anne Tai and Hazel Bluen, University of California 10-31/205

(59) *Letters*: Interaction of Dyes and Finishes. By Jay K. Shah, Chairman, AATCC Committee RA92, Interaction of Dyes and Chemicals 11-7

(60) *Letters*: Why Fabrics Yellow. By K. J. Nieuwenhuis, Instituut voor Reinigingstechnieken TNO 11-7

(61) Dr. Harold C. Chapin Celebrates His 100th Birthday 11-12

(62) Photodegradation of Reactive Dyed Cotton. By Christine M. Ladisch, Rebecca R. Brown and Karen B. Showell, Purdue University 11-17/209

(63) Sumithrin As A Dyebath Mothproofer. By R. E. Bry, J. H. Lang and R. S. Cail, U.S. Department of Agriculture 11-21/213

(64) Effects of Laundering on Wearlife of Chemically Treated Cotton Broadcloth. By Mastura Raheel, University of Illinois 11-23/215

(65) *Short Communication*: Pump Sizing for Vacuum Finishing Systems. By Philip L. Adamczyk, Albany International 11-31/223

(66) The View from New Orleans is Good. Highlights of AATCC's 1983 Conference & Exhibition 12-11/226

(67) Robotics in the Textile Industry. By G. Robert Turner, Consulting Editor 12-17/232

(68) Olney Medal Address: Formaldehyde Release from Durable Press Fabrics. By Theodore F. Cooke 12-19/233

(69) Foam Application of Durable Press and Fluorochemical Finishes to Cotton Fabrics. By AATCC's South Central Section, 1983 Intersectional Technical Paper Competition 12-25/239

North Carolina Location

ANALYTICAL CHEMIST

Discover Career Challenge With A Major Textile Leader!

BURLINGTON INDUSTRIES, a leading textile manufacturing company has an exceptional opportunity available for an experienced Analytical Chemist for Research and Development at the Corporate level.

The successful candidate will be involved with project work, product development and technical services. Selected candidate should have either a MS or Ph.D. in Analytical Chemistry or BS in Chemistry with equivalent experience in analytical work. 3-5 years analytical laboratory experience is desirable. Qualified individual should be experienced with both wet procedures and most instrumental analysis. Work will include GC, NMR, AA, LC, MS, IR. Textile experience a plus.

We offer an excellent starting salary, comprehensive benefits package and a genuine advancement opportunity with a Fortune 200 corporation, long recognized for quality and excellence. Our location offers an ideal seasonal climate with close proximity to mountains and beaches and a variety of cultural activities are readily available.

For confidential consideration, send resume and salary requirements to:
